

Fostering Transportation Improvements

City of Glendale

Over a decade ago, AVS Consulting was contracted by the City of Glendale, CA to determine priority transportation projects and to seek grant funds. AVS was instrumental in the effort that contributed to millions in transportation grant funds from Metro and State Prop 1B funds for Glendale roads and transit projects. These funds included committing millions of dollars for several projects, including state-of-the-art railroad crossings, new Beeline buses and streetlight technology upgrades.

Doran Street Crossing

Site plans for the MetroLink Antelope Valley Line grade crossing improvements through Doran Street and San Fernando Road including the proposals for the I-5 & SR134 freeway improvements.

Completed Glendale Doran St. and San Fernando Rd. interchange.
